Portman Holdings, LLC is a vertically integrated, full-service real estate development company with an international presence and a rich history of developing premier projects that spans five decades and three continents. Our founder, John Portman, pioneered the concept of architect as developer, successfully building both an architectural firm of international repute as well as a host of affiliated real estate development, financing and management companies.

Today, Portman Holdings' multi-faceted expertise sets the standard of excellence for the development of mixed-use complexes and domestic and international urban landmarks as well as major resort areas around the world. These include hotels, office buildings, retail spaces, residences, and trade marts that integrate diverse and often competing interests into a unified project vision which responds to the community's desire to work, live and play in a city setting. These projects set the standard for marquee real estate developments and, wherever they are located, enrich the city by Defining the Sky®.
