PORTMAN HOLDINGS HIRES STANLEY CHIN AS MANAGING DIRECTOR FOR GREATER CHINA

December 12, 2011 (ATLANTA) – [Portman Holdings](#), a leading real estate company, is pleased to announce the appointment of Stanley Chin as Managing Director of Portman Holdings' Greater China region. In this role, Chin will oversee Portman's entire operation in Greater China which includes China, Hong Kong and Taiwan.

"The Greater China real estate market presents continued growth opportunities for us. Stanley's expertise and experience will help lead a new direction for the Portman Holdings' China team, placing an even greater emphasis on deal origination, capital raising as well as development and asset management," said Ambrish Baisiwala, CEO of Portman Holdings. "We are pleased to welcome Stanley to the Portman Holdings team and look forward to the future growth his hire represents."

Chin brings more than 15 years of real estate and financial services experience throughout the Asia-Pacific and European regions, including 10 years focusing on real estate transactions and fund management. Prior to joining Portman Holdings, Chin served as a director of portfolio management within Henderson Global Investors' direct property business based in Hong Kong. There, Chin managed real estate funds, capital raising, and new business development.

About Portman Holdings

Throughout the past 60 years, Portman Holdings has developed over 50 million square feet of premium real estate across the world with a focus on hospitality, office, and mixed-use properties. The vertically integrated real estate development, investment, and management company commands a successful global network and has a proven track record with the world's top financial institutions. Teams in the company's global offices seamlessly connect to develop, finance, and manage a diverse portfolio in the world's core and emerging markets. Portman Holdings continues to achieve success through investor, partner, and client relationships that deliver exceptional real estate projects.
